

# CustyCare

## Mobile Application User Guide

## INTRODUCTION

The CustyCare mobile app provides an easy way for customers to access products/services offered by SMEs. Each user(customer) will be able to:

- Create an account, login and view products/services offered by SMEs
- Search for desired products/services
- Search for any SME that provides a desired product/service
- Giving feedback about products/service
- Having access to their own personal dashboard that saves all current account interest

### **Compatibility**

CustyCare will be available for both Android and Apple Devices.

## Launch Screen

**Custy Care**

**Our goal is to  
create the best for you!**

## Logging In

- If you have already ‘signed up’ input your username and password and press login.
- If you are a new user, click on the sign up menu and the appearing menu will request the following details; Full Names, Username, Email & Password.

### Home Screen

From the Home screen, customers have an option to search for either an SME or product/service and select the desired results. The customers are able to view recommended products/service or view featured products.

### Clicking on product/service

Customers have an option to:

- React heart/love/like to any product/service
- Send message about product/service
- View product description
